BEFORE MR. H. E. POLLOCK. THE MURDEROUS ASSAULT ON A POLICE CONSTABLE.

Complainant said that about II p.m. on the

29th ult., he was on duty in Ship Street. He walked up towards St. Francis's Street, when he heard a dog bark, which aroused his suspicions. He turned back towards Ship Street and walked mitted to the annual general meeting held at into a narrow lane, when he met defendant and the Shanghai Club on the 26th inst.:-two others, who were not in custody. He threw the light of the lantern on them and they annual statement of accounts for the year 1886 stopped. He asked them what they were doing thers. They auswered that they had some business there. The other two then stepped in front of him while defendant stepped up behind him. He then received three or four stabs on his head with a dagger. He turned round and go hold of defendant by the hand with which he was holding the dagger. One of the other men tried to tie a piece of rope which he had round witness's neck. Seeing that he could not arrest the three of them he seized defendant as tightly as he could, and they both struggled together step by step until they reached the place where the old Convent stood. There he knocked defendant down and sat on him. He then took! out his whistle and blew it. Defendant snatched the whistle from him, and he tried to snutch it back again, when defendant bit a piece off the end of his finger. He shouted out and shortly afterwards Mr. Goulbourn came to his assistance Dr. Atkinson, Superintendent of the Government Civil Hospital, gave evidence as to the nature of the constable's wounds when he was admitted to the Hospital. THE TRADE OF CHINA FOR 1888.

The revenue collected by the agency of the Chinese Imperial Maritime Customs during the vear 1888 amounted to Hk. Tis. 27,167,000, as against Tls. 20,514,000 during the previous year. The Annual Returns have not yet been published our figures are therefore taken from the Quarterly Returns. In the absence of the Annual anything like a complete summary of the trade caused by the Kowloon and Lappa stations not stations during the first quarter of 1888 was Tls. 267,300, but in 1887, when apium was passed free through those stations in the corresponding quarter, a large quantity, was so passed which would otherwise have been credited to the succeeding quarters. Making this deduction-we have still an increase of more than Tls. 2.000,000 over the amount collected in 18-7, or nearly bourne to bring a light. We went out to the ten per cent. Tonnage dues show a slight inprease of not quite Tls. 7,000, while transit dues have declined by about Tls. 17,000, the total for the present year being Tls. 415,859. There has, however, as noted above, been an increase in the import trade, and the failing off in the transit pass trade is probably due to the same causes as have led to a decline in the trade of Wuhn and Chinking, the districts served by these ports having suffered from deficient crops. The decline in exports is attributable to the continued falling off in the tes trade. For this it would seem that we must be prepared every year. On the whole, the figures of the year's trade, if they are not quite so high as may have been expected cannot be called disappointing. For the nineteen treaty ports the revenue of the last three years, exclusive of opium lekin, has been as follows:--1888, Tls. 15,875,187; 1887, Tis. 15,536,167; and for 1886. Tis. 15,144,678. 7th February. The foreigner who, would like to see one of the most remarkable sides of Chinese character could not do better than visit a city during the packages fire crackers, 922 rolls matting, 343 Chinese New Year festivities; there, in the packages canes, 300 casks soy, 200 bales rattanmidst of them, he would certainly acquire a knowledge of domestic life of the various classes. Here these festivities have lasted the customar length of time, taking into consideration that not one merchant has settled his accounts by a ot of incendiarism and that no failures have take place; this augurs well for this secluded port. A serious conflagration, which caused the destruction of the largest pawashop in this city, occurred last week; this was caused, as in the majority of cases, by the pasetting of a lamp. The destruction of such an important establishment caused some trouble to the officials, who the Shanghai. were compelled to seek military protection from the anger of the hundreds of depositors. It was only after the Yung-chia Hsien had promised the Bovereigns payment of their claims in full that they dispersed, and further trouble was thus avoided .-Daily News-Correspondent.

NEWCHWANG

It is hardly any use giving news of this place. for what we can say is simply a rep tition of the old story. Starvation everywhere for the poor people. It becomes monetonous, but for actual witnesses the scenes are simply harrowing. Villages of from fifty to three hundred families, all dying for want of the commonest necessaries of life. Every winter there is more or less distress in this, perhaps the poorest province of Chins, but this has been the worst in the experience of the oldest resident. If any nonsual or unexpected misfortune overtakes natives. they are completely done, for they have not the level notion of providing for a rainy day, and twenty-five years of prosperity are completely wasted on the generality of, say, servants in comfortable foreign employment, where, as comfamilies, they are in clover. The advantages, as a rula are continually lost. Even when they don't Hongkong and Whampon Dock Company's Foremen should be at hand, orders for repairs if Captain Gillet, will be despatched as above gamble, and the best Chinese are given to the pay ion, so much so that it is considered right to allow it some outlet for ten days at new year time. there are events always taking place. Parents, wife, children, etc., die and have to be buried, or the youth takes a wife. This eventuality might have been put before alluding to the death. Any. how, whenever any event takes place -- whether marriage, birth or funeral-all the savings, if there be any, are squandered away in presents or festivities. The chances are there are not any azvings, so several months of future earnings are spont and the calf is eaten before its birth. Everything is pawned, and money is borrowed at 5 per cent, interest, "Maskee" is the order of the day, A woman, as we read in the official Gazette, oven sellsherself to bury her mother. It is not a question of opium smoking or dram drinking or gambling, any of which passions, whether in China or anywhere else, will ruin anyone, but simply the ordinary events in a man's life. I know a "boy" who neither drinks, smokes nor gambles, and who is kept poor by marriages, births, and deaths As for the daily labourer who can earn, in the spring or autima, when ships are discharging or loading much cargo, say 1,500 to 2,000 cash 14 to two tiess) = at the rate of Tls 4.50 a Tls 6.60 per month; when he has made enough for a pipe of opinm, he enjoys himself, his tattered garments notwithstanding. Generally the ordinary working Chinaman is improvident, and the knowledge brought before his eyes daily, that as he was singing instead of gathering during the summer, he will have to dance in the winter, and such winter, too, does not improve him. It is just, however, to admit that privations to the verge of starvation are borne with bernic patience. What the quality is that enables a Chinaman to hear, with equanimity the greatest troubles that flesh is heir to, would be worth knowing. Is it simply patience or callousness? An extraordinary instance occurred at the foreign hospital at Moukden, under the care of Dr. Christie. A. Chinaman presented himself for treatment, and brought his coffin with him. Said he: - "All that our own doctors can do is useless, and I am come to you, not because you can cure me, but just to show that I will not throw away any chance." The doctor replied, There must be a great operation which may cause death, but it may cure you." The patient submitted with, one cannot well say indifference. for the ordeal required beroism, and he had his coffin ready for the last emergency, having given the doctor the necessary security in case of death. The man was saved, and is a living monument of Dr. Christie's skill and medical knowledge. and of a Chinaman's patience. - Daily News

This munificent rift of His Majesty is valued at \$46,000, but bhilanthropy and charity have always characerized the Siamese as a nation, and their reoutation is undeniably great in this respect, as s shown in this instance.—Bangkok Times.
